

Discovering the Adult Baby in you - the joys, the struggles, the highs and the lows.

We have another new book for you to read!

"The Adult Baby Identity – Coming out as an Adult Baby"

"Who we are and who we understand ourselves to be is of immense importance to us and yet, as Adult Babies, we are often flummoxed by that question. Why do we have these babyish feelings? Why do we wear diapers and can still fully access our toddler feelings and emotions?"

This new book by Dylan Lewis explores the psyche of the Adult Baby and how it functions and through various stages of development.

If you are an Adult Baby, this book is recommended to help you understand not just who you are, but also your value and place as an AB in the world.

You are not common, but you are normal. You are poorly understood by the world, but you don't need to be poorly understood by yourself."
