

Discovering the Adult Baby in you - the joys, the struggles, the highs and the lows.

Did you grow up as a sissy baby?

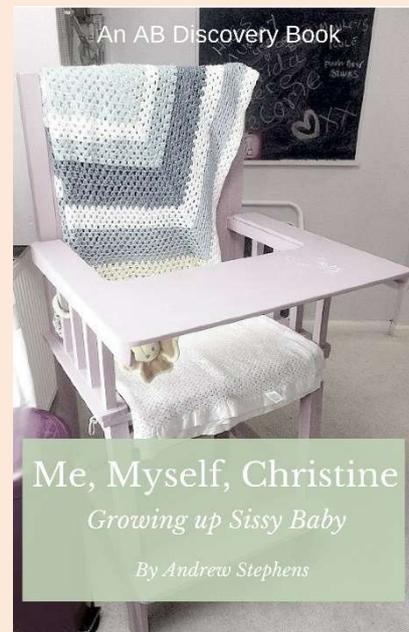

UK resident Andrew Stephens grew up in Australia in the 60s and 70s. He was a bedwetter, fascinated with nappies and panties. It didn't take him long to discover the Sissy baby inside. This is his story...

Andrew Stephens takes us on the journey of his life, from confused childhood to traumatic teens and on to the years of adulthood – all of them while wanting to wear diapers and to be a baby girl.

We join with him as he discovers his inner infant, his inner girl and his inner identity, as he struggles to make life work for him, while the turmoil within causes tension and frustration all around him. We meet Emily, the sissy baby just like him as they share part of the journey together.

It is a story of love, loss, despair and discovery, a journey filled with nappies, panties and friendship.

A truly evocative and powerful book.

Knowing who we are as individuals is the most important journey in our lives and for many, it is the most difficult one. Dylan Lewis brings us the fourth book in his quadrilogy – The Adult Baby Identity – A Self-help Guide

ABDL is not like other identity problems. It is unique, different and requires a perspective all of its own. It is not about gender – although gender issues can be involved. It is not about sexual preference – although that can be involved as well. It is primarily about **age** and being powerfully driven back to a time of life most have left behind and yet, we still literally inhabit.

Is bedwetting your thing?

Wetting the bed is something we all did and most took a very long time to end. Many of us never did. And for some, the 'wet sheet' is something of shame and fascination, but also... attraction. A novel, a picture set and a 'how to' book awaits you...
